PROFESSIONAL EXPERIENCE

Machine Learning Engineer | 2025

Aicomg.org

- Led the development of a commercial-grade AI system, integrating multiple domain-specific models (3D generation and engineering Q&A) into a scalable, containerized API architecture, with secure user access and real-time interaction through a custom CLI interface

ASR Engineer | 2025

Senses Hub

- Developed the core backend and modeling components for a multilingual ASR solution submitted to the Inclusive Speech Technology Hackathon .
- Utilized transformer-based models (Whisper, wav2vec 2.0) and custom data pipelines to fine-tune speech recognition models on Kenyan English, Kiswahili, and indigenous languages.
- Ensured flexible code architecture by anticipating late-stage dataset changes, reducing major code refactoring.

Product Design Manager | 2023 - 2024

Informed Systems

- Providing technical support, and overseeing computer programs or electronic products. Manage website design, content, and SEO Marketing, Branding and Design

EDUCATION

Egerton University | 2017-2024

Bachelor in Computer Science

CERTIFICATES

Holberton School | 2023-2024

Software Engineer

[Certificate](#)
